

Dear Friend,

Because of the important role you play in our community, and because I believe you can help us make a difference, I wanted to personally invite you to join me at an upcoming planning session for **Southern Indiana ALIGNMENT**. Have you ever wondered how we, as a regional community, could overcome our differences and break down our silos to lift our region up as a great place to work, live and play? I think Southern Indiana ALIGNMENT will help us do that. This innovative new program is designed to build strategic collaborations across all sectors, generating collective impact that will address our community's quality of life and place. I hope you'll join me and other Southern Indiana leaders as we pave the path that will lead us to a stronger community with more efficient solutions.

SoINALIGNMENT

because we accomplish more together
than we can alone

**May 23 - Ivy Tech, Sellersburg
Horseshoe Community Room
8:00 am - 4:00 pm**
RSVP to

A national organization with a proven track record, Alignment USA, will facilitate our path toward an innovative, structured, approach to collective impact that will change the way we partner to generate real results for our community.

Please join me, Alignment USA, and other community leaders as we use this proven program to begin the next chapter of the Southern Indiana Quality of Life Initiative.
